Control of stored product pests

1. Collect a sample of pests including adults & larva for identification.
2. Quarantine all effected stock or wrap tightly in cling wrap & place in a freezer or cool room.
3. Clean floors, storage areas, shelving & production machinery & remove spilled stock.
4. Check other stock for signs of infestation.
5. Call 0400 314 303 to arrange treatment of the infested areas.
6. Consult suppliers to return infested stock if you have identified the source of the infestation.
